Homozygous polled deep dark red. Another out cross purchased to use on our close net bloodlines. 1999 National Champion Gelbvieh bull in Denver. True calving ease, will really shorten gestation length. Dam has sold over \$150,000 worth of progeny to date. Extremely wide and structurely correct. Unlimited genetic potential.

In Focus continues to be the heaviest used bull in the industry. He remains the only bull in the Angus breed with a .90 or higher accuracy that ranks in the top 10% for calving ease, birth weight, weaning weight and yearling growth. Progeny are drawing very favorable reviews for their calving ease, early growth and thickness.

Homozygous black and homozygous polled herd sire we purchased from Corry Ruppel, to use as an outcross in our herd, and for cattlemen who have been using our bulls for several years. Gunnison is doing a great job of breeding desirable traits as you will see his calves come easy and are excellent in giving fleshing ability, muscle, and depth of rib. You will appreciate his calves sale day.
